

Education & Skills Working Group 25 January 2007

To prioritise, implement and develop the strategic agenda on education and skills set out in ‘A Strategy for Materials’.

Improving skills and knowledge was a key theme

Attract and retain an educated and skilled workforce

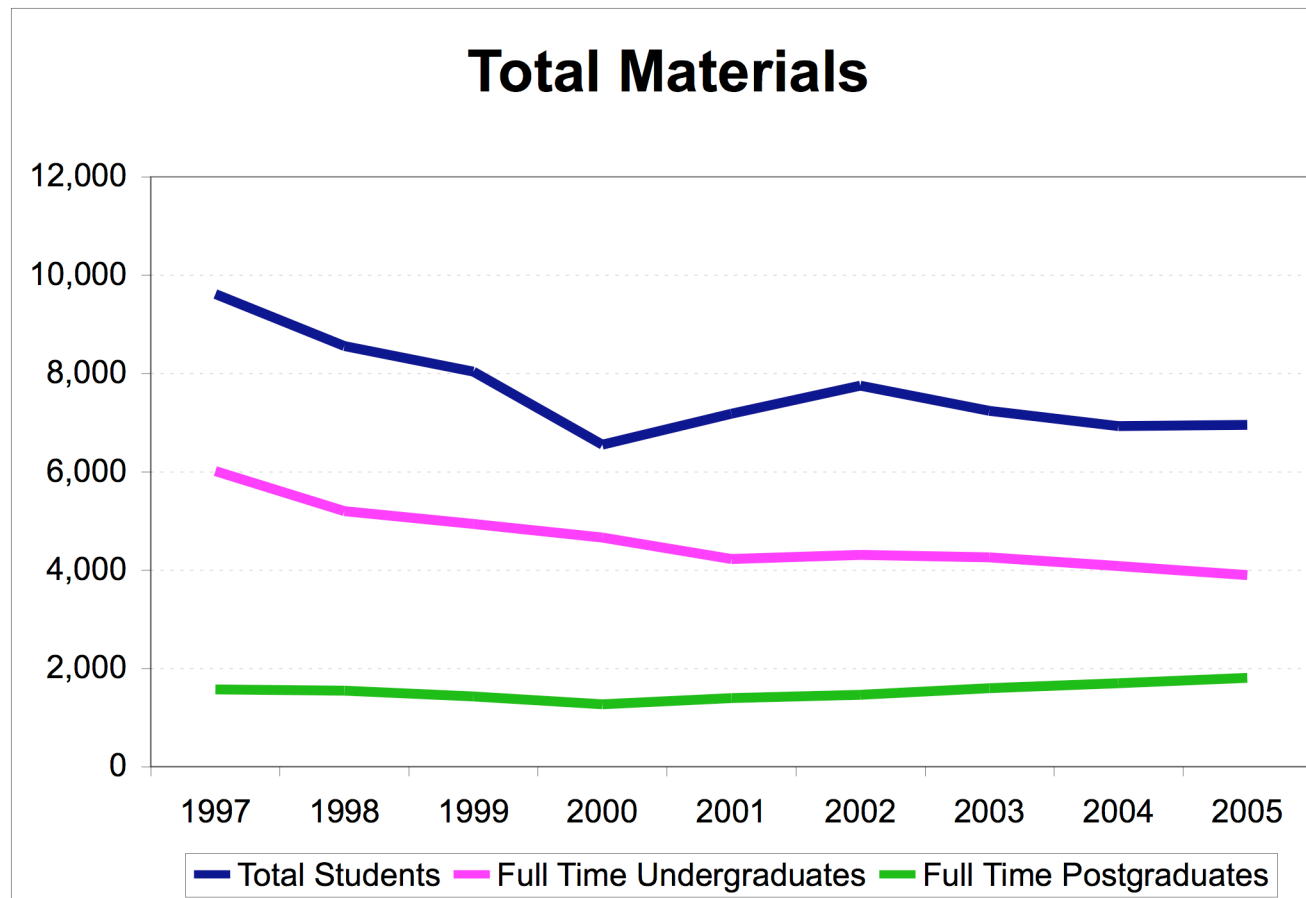

Provide knowledge / access to relevant education and training

Work with Manufacturing Skills Academy and Sector Skills Academy to deliver training to fill gaps

Materials KTN to develop register of skilled vacancies

Provide understanding of materials industry to schools

Student figures relating to different materials
